

# Customer Service Centre

WE AIM TO GIVE THE BEST SERVICE TO CUSTOMERS. CUSTOMER'S REQUEST / FEEDBACK IS IMPORTANT TO US.

In this era of globalisation and vast technological change, Omron is reaffirming its dedication to offering added value to customers by developing innovative products and services. Omron intelligent components will be the building blocks for new consumer and industrial products. Control products, systems technologies and software will form the heart of flexible, networked manufacturing lines and automation systems.

**“We seek to put Customer's Perspective First”**

- Product Specification
- Product Recommendation
- Quotation
- Technical Enquiry
